

# Assembly Instructions

Lay out all parts in a clean open area allowing for an easier assembly process. We suggest having two people in the assembly process. The tool is included for assembly.

## **Step 1 / Base**

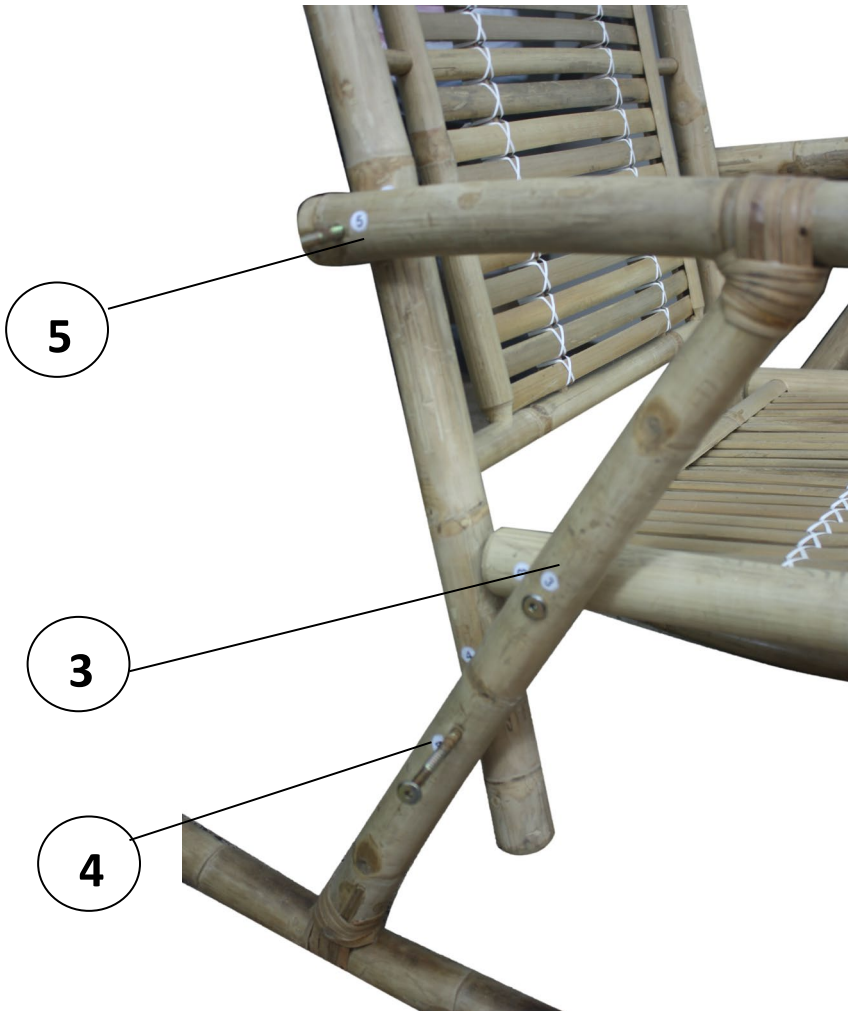

Position Base with opening facing upward, stand Base up and open other parts as shown below.

Fix 2 bases in the sides of the chair. Please notice marked number.

## **Step 2 / Seating Panel**

Just put the seating panel on the frame of chair. Please notice the position of marked number.

## **Step 3 / Back frame**

Finally put the back of chair. Please notice the position of marked number.

Dear Customer,

Congratulations with your new bamboo furniture. When assembling the furniture we ask you to be aware that bamboo is a natural material and therefore no two places are the same.

When tightening the screws please be careful not to tighten too hard as this may lead the screw to brake material.
