

Assembly Instruction:

- 1- Turn the back of the chair you bought upside down.
- 2- Turn the metal leg inside the box upside down as seen in the picture on the side. Be careful to place the leg properly.
- 3- When assembling the product, you can use a drill or a Phillips-head screwdriver.
- 4- Screw the medium size screws included in the box (5.50) to the back.
- 5- Screw the medium size screws included in the box (5.40) to the front.
- 6- Screw the smallest screw (4.20) included in the box to the small metal part on the leg.
- 7- Our company checks the balance of the leg, there may be imbalances during transportation. If there is a problem with the balance of the feet, you can regain balance by stretching the two leg that are firmly on the ground towards the outside.
